Clients Served

only Story

S. Saify & Co. was founded in 1965 by Mr. M.A. Aggarwal, Mr. Chokkiah and (Late) Sri. Husein. They turned it into a leading provider of metal-cutting tools. The company is known for its commitment to superior quality products and timely deliveries.

With 58 years of experience, S. Saify & Co. is highly experienced in meeting diverse client requirements. The company's directors and managers are committed to staying updated on emerging markets and trends, providing specialized products and innovative solutions. This approach optimizes business costs, saves time and improves inventory management. S. Saify & Co. is a preferred partner for medium and large-scale industries seeking tailored, client-centric solutions.

only Vision

At S. Saify & Co., our vision is to be the top one-stop solution for all metal-cutting tool needs. We aim to become a globally renowned brand known for our exceptional and diverse range of tools. Quality, reliability and customer-centricity are our core values, driving our commitment to deliver products that exceed expectations and set new industry benchmarks.

only Mission

At S. Saify & Co., we are dedicated to delivering superior metal tools and innovative solutions that help our clients optimize their operations. Our goal is to build lasting partnerships by ensuring sustainable cost savings, time reductions and efficient inventory management.

Brands We Deal in

Hole Making Solution

800 821625/602

VMC / CNC Tools

Knurling Solution for CNC Turning Centers & Lathe

Knurling

Knurling is a process in which a pair of knurling rolls with different diameters are used to create a series of parallel ridges on the surface of a cylindrical workpiece. The knurling process is highly repeatable and can be used to create a wide range of knurling patterns.
